## **DETAILED ACTION**

### ***Response to Applicant's Amendment***

1. Examiner notes that the notice of allowance filed 6-14-2007 has been withdrawn and a new notice has been submitted to correct a claim numbering error on the previously filed PTO-37 form.
2. Based upon the submitted amendments received 3-23-2007, examiner notes that claim 27 has been cancelled, claims 1,24,28 have been amended and claim 34 has been added.
3. Examiner withdraws all rejections to all claims.

### ***Allowable Subject Matter***

4. **Claims 1-20,24-26,28-34** are allowed over the prior art of record.
5. The following is an examiner's statement of reasons for allowance:

In the examiner's opinion, it would not have been obvious to a person of ordinary skill in the art to provide baseband compensation for nonlinear behavior of rf filters only for the transmit /receive channels that are at the beginning or end of the full transmit band and the full receive band in the systems disclosed by Abdelgany (6584090), Shalom (6166601), Abdelmonem (6622028). Examiner additionally notes the distinction applicant makes between compensating for filter non-linearities and compensating for amplifier non-linearities (Remarks filed 3-23-2007, page 13). Examiner reads the 'compensation' of applicant's independent claims as only being applied to the non-linear operation of a filter (attenuation of frequencies outside the desired passband), not applied to any non-linearities caused by any 'amplification' of the selected channels.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alexander Jamal whose telephone number is 571-272-7498. The examiner can normally be reached on M-F 9AM-6PM.
